SUMMARY

Highly skilled and motivated Full-Stack Developer with a growing experience in proficiency in JavaScript, React, Ruby on Rails, HTML, and CSS. Noted for expertise in developing dynamic, user-friendly web applications. Exceptional collaboration skills shine in remote team environments, adept at translating client requirements into scalable solutions. Known for delivering high-quality code while continuously seeking opportunities to learn and stay updated with the latest technologies and industry trends.

Committed to delivering exceptional results with a keen focus on user experience and functionality. Proven ability to manage multiple projects and meet deadlines effectively. Strong communication skills and a passion for teamwork contribute to a positive and productive work environment.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3

Back-End: Ruby, Rails, PostgreSQL, Python, Django

Tools & Methods: Git, GitHub, Git CLI, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools, macOS Systems

Professional: Remote Pair-Programming, Teamwork, Mentoring, Communication

EXPERIENCE

MICROVERSE

Technical Support Engineer

Remote

January 2023 - Present

- Provide technical support through code reviews to improve code quality and overall performance.
- Give students feedback to help them grow their programming skills by assessing their code clarity, style, and best practices on project PRs which improves performances and confidence levels by 35%.
- Provide one-on-one virtual office hours to help students feel comfortable with project objectives, boost their confidence in their skills, and help them grow their professional communication skills.
- Enhance multicultural professional collaboration in globally dispersed student groups to boost success in pair-coding activities.
- Experienced major real-life working scenarios with the Review Team by creating 2 merged PRs that helped improve learning modules and project submission.

MICROVERSE

Mentor

Remote

July 2023 - Present

- Assist 3 students by providing technical support through code reviews and objective feedback.
- Propose improvements to code organization to improve code quality and overall performance by at least 75%.
- Provide mental support, stress management, and tips on maintaining motivation in the program which guarantees that 100% of my mentees complete the program.
- Conducting one-on-one mentorship sessions for personal and professional growth.
- Fostering collaboration and facilitating group discussions for enhanced learning.

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer,

Remote

March 2023 - Present

[Appoint Doctor](#) - This is a full-stack project, connecting Rails API to React front-end, in which users can register, create a doctor, book an appointment with the doctor, see all scheduled meetings, and delete a doctor(s). Built a

group project with the other 4 team members to leverage the full beauty of shipping applications with the combination of React and Rails.

- **Built with: React.js, Ruby, Ruby on Rails, and PostgreSQL (Database), Collaboration**

Accomplishments:

- Object-Oriented Programming design and implementation with Design Patterns (MVC, RESTful, etc.).
- Back-End design and implementation with PostgreSQL, and open-source packages.
- System deployment and management with Render, Netlify, etc.
- Large project experience with Agile Development, Version Control (Git), and related tools.
- Successful collaboration with 4 team members to plan and execute the development of new features, ensuring effective communication and project coordination to meet up with the deadline.

BudgetTracker App - Budget-wise App is a mobile web application with authentication that allows users to manage their funds. The app features a list of transactions associated with each category so that users can evaluate spending and make informed financial decisions.

- **Built with: Ruby, Ruby on Rails, and PostgreSQL (Database), Self-learning**

Features:

- **Authentication:** Users can create accounts and securely log in to access their personal financial information.
- **Fund Management:** Users can track their expenses on groceries to gain insights into their financial situation.
- **Transaction History:** The app maintains a detailed history of transactions categorized by specific categories. This allows users to evaluate their spending patterns and make informed decisions.
- **Category Management:** Users can create and manage categories to organize their transactions effectively.
- **User-Friendly Interface:** The mobile web application offers an intuitive and user-friendly interface, ensuring a seamless experience for finance management.
- **Data Security:** The app prioritizes data security, ensuring that user information and financial data are protected using industry-standard encryption techniques.

MICROVERSE

Remote

Student

January 2023 – Present

- Improving your problem-solving, critical thinking, and communication skills through pair programming, code reviews, and other collaborative learning methods.
- Collaborating effectively with team members from different time zones and cultural backgrounds.

EDUCATION

MICROVERSE

January; 2023 – Present

Remote Full Stack Web Development Program, Full Time

- Spending 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with remote developers across the globe.
- Built over 30+ projects with full-stack functionalities and User-centered designs for smooth access.
